

Major Projects of ECE Students

During the diploma course students have come out with excellent projects ideas which are further nurtured by expert faculty members of the Department to give practical shape to their ideas. These projects have good market value and can generate income for the students who want to become entrepreneurs. Some of the prestigious projects of the Department are **Women Tracking System**, **Voice Controlled Wheel Chair**, **Automatic Irrigation System**, **Rotating Solar Panel**, **Smart Dustbin**, **Solar Inverter**, **Gas Leakage Alarm**, **Accidental Road Safety Preventions**, **Public Addressing System** etc.

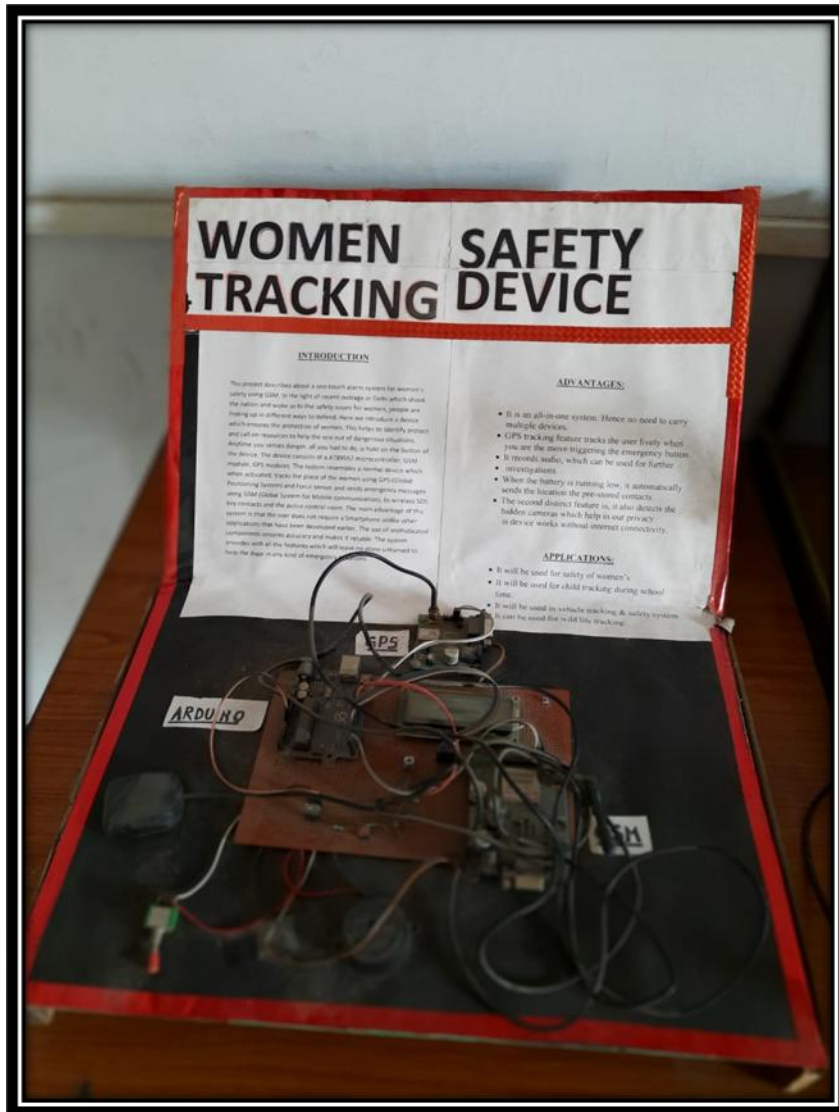

“Automatic Irrigation System” Project was awarded First Prize by “The Institution of Engineers”.

Major Projects:

Smart Agri Monitoring System-Project

Women Tracking System –Project

LED Running Display
